You will be supported on a one-to-one basis by your apprenticeship tutor to complete these as quickly as possible using a range of training materials to best suit you.

**I feel anybody questioning enrolling in an apprenticeship would benefit speaking with someone from BPN as my personal experience thus far has been brilliant."**

## Funding

As an apprentice, you will not have to pay any money towards your course. You will need the support from your setting, who can access funds from the English apprenticeship levy fund. Best Practice Network can help your employer with information and support if needed to apply for these funds.

## How to apply

To apply, you should complete the application via the [programme page](#) on our website. Our team will be in touch to guide you through the next steps. You will need to upload proof of existing qualifications and complete a short maths and English initial assessment where necessary.

## Gateway

On programme completion, you, your employer and apprenticeship tutor will meet to agree you are ready to "proceed through Gateway" to your End Point Assessment.

This is also a chance for your tutor to help with any questions you have about the assessment, and make sure you are fully confident and ready to proceed.

## End Point Assessment (EPA)

The EPA will be an opportunity for you to demonstrate the assessment criteria linked to the Knowledge, Skills and Behaviours you will have learned and developed during the programme.

The two assessment methods are:

- Assessment 1 – Practical observation with questions and answers
- Assessment 2 – Professional discussion supported by your portfolio of evidence

The EPA typically takes place within one to two months of you completing the training programme, although a maximum of three months is allowed.

## £ Funding routes

### If your setting contributes to the apprenticeship levy fund

Levy paying employers can access their fund contributions through their **Apprenticeship Service Account**. You can use this service to manage the funds you have available for apprenticeship training in England.

### If your setting does not contribute to the apprenticeship levy fund

**You pay 5%** towards the cost of the training for your apprentice. The remaining **95%** will be paid by the government.

### Apprenticeship levy transfer

Employers with unspent funds can **transfer up to 25%** of that contribution to another employer. That means you can benefit from the levy contributions of a different organisation to cover the full costs of an apprenticeship for your setting.

### If your setting has fewer than 50 employees

You will receive **100% of the funding** where the apprentice is 16-18 years old or is between 19-24 and has a local authority education, health and care plan.

Employers and training providers will both receive an **additional £1,000** where the apprentice is between 16 and 18 years old.

**What do I need to apply?**
